Radosław Karbowy – Coordinator for the construction of the footbridge

Kazimierz Fabiszak – Coordinator for the modernization of municipal buildings

Damian Kruczkowski – Senior policy coordinator

Tomasz Gilewski – Application coordinator space available

Katarzyna Rejniak – Project manager

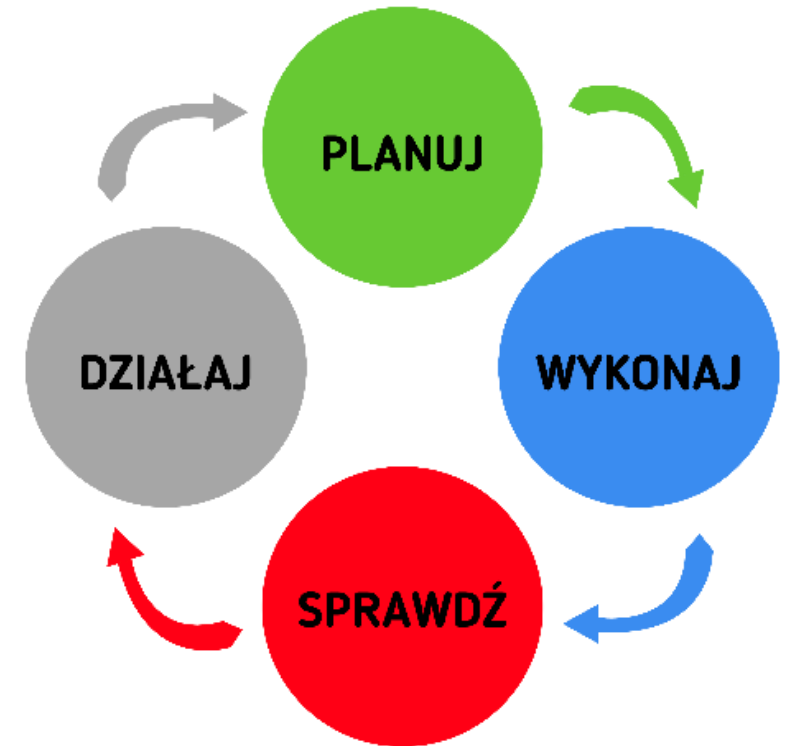

Witold Nowak – Deputy President for Social Affairs

Project management – coordination

Project management is a set of activities performed to achieve the set main and intermediate goals within a specified period of time. It includes, among others, planning, scheduling, implementation (ongoing monitoring), control and settlement of tasks contributing to the implementation of the project objectives.

In practice, project management is:

- a process that allows you to achieve the goal specified in the project,
- work of the entire project implementation team,
- specific work rules,
- IT tools,
- continuous improvement.

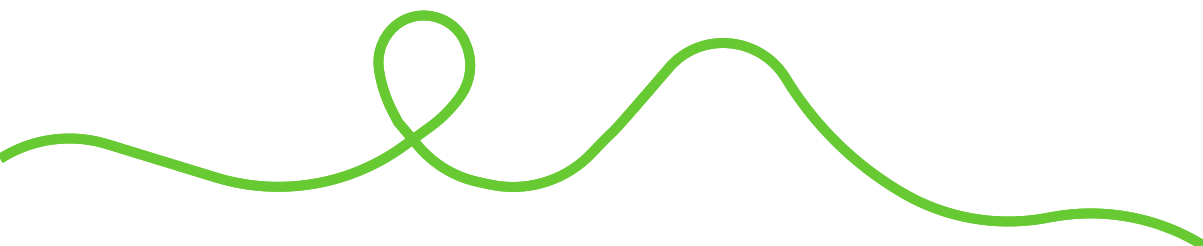

Step by step how to manage a project for a project manager/coordinator:

- 1) Review of the funding application, contract and other documents related to the project by the project team,
- 2) Appointment of a team for project implementation,
- 3) Organization of the first meeting of the project team:
 - Presentation of the project objective, activities, result and product indicators, schedule and project implementation period.
 - Getting to know the team and discussing who is responsible for what.
 - Contact list for the entire team (phone, email).
 - Working together on the principles of cooperation – contract.
 - Joint discussion of the provisions of the co-financing agreement and other documents, e.g. guidelines for the selection of contractors (internal regulations, competitiveness database, Public Procurement Law).
 - Providing sample documents (logos, promotion, marking template, binder description, invoice description, etc.)
- 4) Determine the risks associated with project implementation,
- 5) Ongoing control of the project by using tools (monthly reports, expenditure of funds, level of implementation of activities
- 6) Project summary.

2. Exchange of experiences

Each project presents new challenges, so it is worth sharing experience in implementing projects and showing encountered problems and solutions

The screenshot shows a webpage for the 'City energy generator a source of success for Konin' project. At the top left is the 'Norway grants' logo. The main title is 'City energy generator a source of success for Konin' in a green box. Below it, it says 'Projekt realizowany w ramach Programu „Rozwój Lokalny”'. Logos for 'MINISTERSTWO FUNDUSZY I POLITYKI REGIONALNEJ' and 'konin tu płynie energia' are visible. A large image of a river landscape features a text box: 'Working together for a green, competitive and inclusive Europe.' Below the image, the text reads: 'The CITY ENERGY GENERATOR A SOURCE OF SUCCESS FOR KONIN project, implemented under the "Local Development" Program, benefits from a € 2.8 million grant from Norway and nearly a PLN 2.3 million grant from the state budget.' The 'PROJECT IMPLEMENTATION PERIOD' is '01/10/2021 to 30/04/2024'. The beneficiary is 'KONIN CITY'. The implementers are 'The City of Konin, Zarząd Dróg Miejskich w Koninie, Przedsiębiorstwo Gospodarki Komunalnej i Mieszkaniowej Spółka z ograniczoną odpowiedzialnością w Koninie'. The total value is 'PIN 15 316 008.67: including:'.

2023.10.16 - Konin among 11 Polish cities on an internship in Norway

In the period from October 4 to October 15, 2023, 21 local government employees from Poland participated in an internship project under the "Local Development" Program. Konin was represented by Katarzyna Rejniak - project manager and Mirosław Jeżyk - coordinator of promotional activities. The internship program was divided into two parts.

Training for the revitalization committee of the city of Konin entitled "The idea of revitalization and the role of the revitalization committee"

On June 29, 2023, at the headquarters of the Municipal Office in Konin, a training was held for the revitalization committee of the City of Konin, conducted by advisors from the Association of Polish Cities as part of the "Local Development" Program financed by the Norwegian and EEA Funds. The topic of the training was "The idea of revitalization and the role of the revitalization committee." During the meeting, participants learned about the principles of revitalization activities in theory and practice, as well as the function of the revitalization committee.

Strategic management - a platform for exchanging good practices

Workshops for employees of local government units from Eastern Greater Poland responsible for the implementation and management of projects were held on June 16, 2023 in the Town Hall of the City of Konin. The meeting was a very good example of exchanging good practices and sharing experiences. Topics covered included; methods and principles of team building, how to encourage people to join the team, what qualifications and competences people should have to be part of the team, whether it is worth defining the scope of responsibilities of these people.

June 13-14, 2023. Networking workshops

The city of Konin took part in the "Summer networking workshops" organized by the Association of Polish Cities for cities participating in the "Local Development" Program (RL). Effective and creative meetings were addressed to coordinators and members of city teams, implementers of the "Local Development" Program in each city, in particular to people responsible for promoting and informing about activities in the RL program. The meetings were devoted to, among others, discussion of current implementation issues regarding information and promotion requirements and changes in projects.

On March 1-2, 2023, the Experience Exchange Network took place in Konin

The meeting was held as part of EMPIRIA - Experience Exchange Network as an educational activity financed by the project "Urban energy generator - the source of Konin's success". During these days, representatives of various local governments at the financial and development levels shared their experience in strategic management and project management.

How we created the strategy (problems = successes. Circulation and description of accounting documents in the Municipal Office in Konin. How to inform employees about it, etc. How the New Development Path was introduced in Konin. The process of updating and monitoring the Development Strategy of the City of Konin Plan 2020-2030. Strategy Coordination System "

3. Qualified staff

The new competences acquired by officials will contribute to better implementation of projects, and residents are and will be served by qualified and experienced employees.

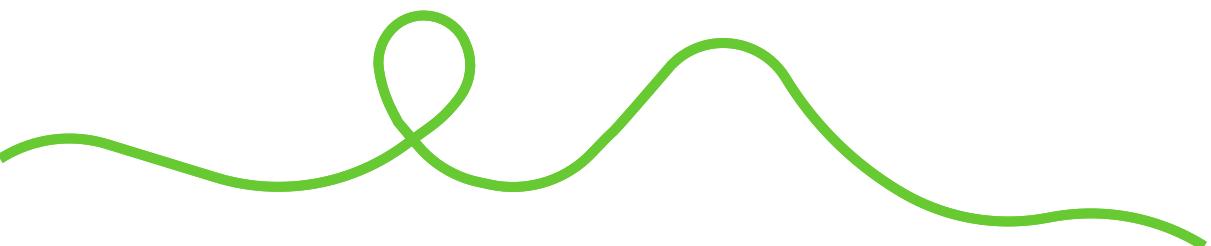

As part of the project, 65 employees benefited from improving their qualifications and professional competences:

- 11 postgraduate studies
- 10 English courses
- 18 specialized training
- 3 IT training courses
- 4 soft training
- 26 group work workshops
- 19 project management course

4. Development of entrepreneurship

Students and teachers will gain practical knowledge about entrepreneurship by participating in the "How to be entrepreneurial" campaign.

As part of the project "Urban energy generator - the source of Konin's success", an activity regarding the development of entrepreneurship among young people was also carried out. Four editions of two-day workshops were organized for secondary school students who learned how to prepare a good business plan.

A total of 108 students from Konin secondary schools participated in the campaigns

5. New IT system

A new IT system will be created at the City Hall to improve the quality of services provided, and residents will be able to use new e-services (e.g. taxes, garbage, applying for vacant official positions, etc.).
